

SEP 2019

Donation Amount: \$3080.00

In September we donated another \$3080.00 to CINI Australia, in continuing support of the IICCHAA program (Indian Initiative for child centred HIV/Aids approach).

Dr Jennie Connaughton, founder of CINI Australia, attended our September tool box meeting and filled us in on the programs development. We heard about how much families appreciate the help that they get with IICCHAA and how they too are giving back.

When parents "graduate" from the program many are helping make life better for others. They bring new families to IICCHAA, accompany them for HIV testing and health care, help negotiate financial government benefits and lead the children's club's activities in their villages. They break down barriers for families who are struggling. Their strength and confidence shows new families that life will get better and that they will be able to provide for their children.

Modus Property's monthly donation are vital in being able to reach these families and children in need.
