

NOV 2019

Donation Amount: \$3670.00

Pictured above is Mozamel, an Uttar Dinajpur outreach worker visiting one of the villages he is responsible for. He is well respected and many families have been helped by his hard work and understanding.

World AIDS days is celebrated on 1st December to raise awareness and to support those living with HIV/AIDS. This year's UNAIDS's theme is *Communities make the difference*.

CINI Australia and Modus Property are making a difference through our IICCHAA team who go into their communities every week. During home visits our field workers see the specific support needed by each family, if they have adequate sanitation at home, which children are not in school and who needs assistance to get a secure roof over their head. They come across new families who are still afraid to attend medical services. They identify which villages would benefit from public awareness activities to build a supportive community for HIV affected families.
