

JUN 2020

Donation Amount: \$3300.00

CINI Australia are continuing to utilise our monthly donations, to repair damage caused by Cyclone Amphan. The cyclone ripped through vast areas of Eastern India in May.

Bablu pictured above, is a labourer earning three dollars a day whenever there's work, one day at a time. His oldest son drives a van and since the COVID lockdown there is has been very little work.

After the cyclone devastating their home, CINI have provided these precious sheets of tin for a new roof, which the family otherwise couldn't afford.

The building repairs are not quite what we might expect here in Perth but have meant so much for this family and many others, keeping them safe as the drenching monsoon rains set in.
