

2024 FOURTH QUARTER

Donation Amount: \$5665

In 2024, we proudly donated \$22,665 to CINI Australia, helping fund life-changing programs like IICCHAA (Indian Initiatives of Child-Centered HIV/AIDS Approach).

This initiative is transforming the lives of 46 children across South 24 Parganas, Murshidabad, and Uttar Dinajpur. With the support of private tutors, these children are continuing their education despite incredible challenges.

Many of them face difficult household conditions, with unmet nutritional needs, limited access to Antiretroviral Therapy (ART), and caregivers unfamiliar with the value of education—often because the children are the first in their families to attend school. IICCHAA steps in to bridge these gaps, providing education, health care, and support to help families rebuild hope.

Meet Ishan (name changed for privacy), a 9-year-old living with HIV. After losing both parents to the disease, he and his brother now live with their grandparents. Thanks to IICCHAA, Ishan receives regular ART, nutritional support, and tutoring. In just a short time, his weight increased to a healthy range, and his HIV status is now undetectable. Today, Ishan can focus on learning, playing, and simply being a kid.
